Suggested Packing List

It is extremely important for trips to Africa that you travel light because busses and safari cars do not have much storage and we will be moving a lot.

- Passport
- Cash and credit card
- Phone with international data plan and charger
- One passport photo if there is a visa on arrival requirement
- European converter
- Prescribed medication
- Malaria medication if required by country or recommended by your doctor
- Light clothes
- Hat
- Comfortable shoes (pair of sneakers, pair of sandals)
- Hand sanitizer (travel size)
- Sunscreen (travel size)
- Mosquito repellent travel size
- Small backpack
- Reusable water bottle (ideally the one that keeps the temperature)
- Comfortable shoes (pair of sneakers, pair of sandals)
- Personal cosmetics (**travel size**)

We suggest that for trips lasting from 7-10 days you will bring a minimum of \$500-700 in cash for personal spending if you are not planning to shop a lot. Plus, the credit card.
