Travel Essentials

1. We can airport pick-up and drop-off at the airport for an extra \$45 per person, but we require that you provide us with your flight itinerary at least 10 days before the trip starts. Alternatively, you can arrange your own transportation.
2. We suggest that for trips lasting from 5-7 days you will bring a minimum of \$350-500 for personal spending if you are not planning to shop a lot.

Suggested Packing List

It is extremely important that you travel very light and with a backpack rather than a suitcase. We will be moving a lot on this trip.

- Passport
- Cash (only crisp new bills) and credit cards
- Prescribed medication
- Hand sanitizer
- Good quality **backpack** to carry your stuff and a **smaller day bag** for hiking. Make sure they come with waterproof covers.
- Reusable water bottle (ideally one that holds temperature)
- Comfortable shoes (sneakers or sandals)
- Sturdy pair of super comfortable hiking boots, well broken in
- Personal cosmetics (travel size)
- Waterproof and windproof **jacket**
- If you are used to and like **walking poles**
- UV 30+ protection sun lotion (travel size)
- Sunglasses (you will need on the glacier)
- Scarf and gloves - you will definitely need those when walking the glacier
